Subject: Idaho Power & Columbia River temp TMDL

Melissa and Kelly,
We are hoping to set up a meeting with you two to talk about
1) Idaho Power and
2) Columbia River temp TMDL

On our end: Mike G, Ben Cope, Dave Croxton, me, John Palmer.
Mike thinks 1 1/2 hours (Ben thinks 2!).
Possible dates on our end include Friday April 25th (we could drive down) or Thursday May or Wednesday May 7 (we might need to have you drive up).

Mike indicated that there is a time critical element to the Idaho Power portion of the meeting. If you end up coming up here, I will provide chocolate and coffee, if needed.

cheers,
Laurie
